

# Total Productive Maintenance (TPM)

Services	Deliverables
▪ TPM/PM	▪ 8 Hour workshop for 5 to 15 participants.

*"An ounce of prevention is worth a pound of cure"*

## Total Productive Maintenance Workshop

Total Productive Maintenance is a system that focuses on getting Managers, maintenance and equipment users working together to prevent equipment problems and reduce expenditures. We give ownership and responsibility of equipment and processes to the right employees. Advantage Kentucky Alliances provides a systematic approach to set standards and visual guides which makes equipment run smoothly.

## The Advantage Kentucky Alliance trainer will deliver the following learning activities and tools:

- Lecture with PowerPoint Presentation
- Tool demonstration
- Workbooks for participants
- Discussion and interaction
- Root Cause
- Questions and answers
- Types of equipment breakdown
- Simulation Template Explaining Criteria for TPM
- Contents of TPM Cart
- Examples of critical spare parts template
- Concept of OEE

## Upon completion of the TPM Workshop, participants will:

- Understand TPM/PM
- Have a knowledge of TPM concept for equipment
- Will know how to track up time and down time
- Will understand machine severity
- Will understand cleaning, marking & inspection
- Will know everyone's responsibility
- Will understand daily PM
- Reduce or eliminate breakdowns
- Will reduce or eliminate small stops or slow running
- Will reduce or eliminate defects
- Will reduce or eliminate accidents

The company will provide the classroom and refreshments for participants and the AKA trainer.
