Pre-Assessment of the QMS (needed to determine readiness for registration)

This is an audit/review of the QMS processes prior to the actual ISO assessment by the Certification Body (CB). The objective is to determine the Company's readiness for registration by determining if all of the requirements found in ISO 9001 Standard have been met and are effective.

Objectives:

- The objective is to determine the Company's readiness for registration by determining if all of the requirements found in the ISO 9001 Standard have been met and are effective.
- This audit is very similar to an actual compliance audit by a CB.
- Findings will be documented and corrective actions will be discussed.
- **Audit activities can be used as part of the Company's internal audit program.**
