## Egress & EAP (Emergency Action Plan)

*"Learn not to burn"*

Our safety course demonstrates that the best way to prevent emergencies is through planning and preventive measures.

Every company should have a complete Emergency Action Plan. But where do you begin? What should it include? This workshop allows you to build team work while deciding what emergency action plan is best for the team. It also allow us to aid in developing Exit Routes, Emergency Action & Fire Prevention Plans, Emergency Action Plans (EAP) & Fire Prevention Plans (FPP).

### After completing this course you will:

- Know the OSHA requirements from design to exit route safety.
- Be ready to develop your own Emergency Action Plan
- Be ready to develop your own evacuation planning matrix.

The definitions, ideas and steps covered in this course can be used in your personal Life as well!

The company will provide the classroom and refreshments for participants and the AKA trainer.
