Welcome back!
We knew you couldn't resist our good looks.
WHO ARE WE?

- Women in Science and Engineering, or WiSE Student Organization, is a pre-professional group that is open to all students who are interested in the support of diversity within STEM fields. Our mission, as stated in our bylaws, is to provide a system of support for individuals, especially females, within math and science fields; to provide resources to further academic goals for said persons; and to sponsor events and outreach to the community with the goal of furthering interest and awareness of STEM fields.
EVENTS

• VOTE: Lunch or dinner together during the week, or ice cream?
• Volunteering at Natcher
• Projects
• Competitions
ROCK STARS OF SCIENCE

Grace Hopper:

• Commissioned into U.S. Naval Reserve early in WWII
• Computer scientist that greatly advanced computer programming languages
• Created first compiler, which essentially allows humans to “talk” to computers
• Received many military and academics honors throughout her career
